

## Departments, Divisions and Programs

### NCI-Designated Comprehensive Cancer Center Research Programs

Cancer Control and  
Population Sciences  
Cancer Immunotherapeutics  
Developmental Cancer  
Therapeutics  
Hematologic Malignancies  
Molecular Oncology Program

### Beckman Research Institute Department/Divisions

Cancer Biology  
Biology  
Radiation Biology  
Tumor Cell Biology  
  
Cancer Immunotherapeutics  
and Tumor Immunology  
Diabetes and Metabolic  
Diseases Research  
Diabetes, Endocrinology &  
Metabolism Research  
Gene Regulation and Drug  
Discovery  
Molecular Diabetes Research

### Immunology

Information Sciences  
Biostatistics

Clinical Research Information  
Management

Research Informatics

Molecular and Cellular Biology  
Molecular Medicine  
Molecular Pharmacology  
Neurosciences  
Population Sciences  
Cancer Etiology  
Clinical Cancer Genetics  
Nursing Research and Education  
Outcomes Research/  
Intervention

Virology  
Translational Vaccine Research

### Additional Beckman Research Institute Divisions

Comparative Medicine  
Hematopoietic Stem Cell &  
Leukemia Research

### Additional Beckman Research Resources

Animal Resources Center  
Sylvia R. & Isador A. Deutch  
Center for Applied  
Technology Development  
Center for Biomedicine &  
Genetics  
Office of Technology Licensing

Irell & Manella Graduate  
School of Biological Sciences  
Career Development

Curriculum Development  
Department of Continuing  
Medical Education  
Eugene and Ruth Roberts  
Summer Student Academy  
Graduate Medical Education  
and Clinical Training  
Postdoctoral Training Office

### National Medical Center Departments/Divisions

Anesthesiology  
Clinical Diabetes, Endocrinology  
& Metabolism  
Diagnostic Radiology  
Interventional Radiology  
Nuclear Medicine  
  
Hematology & Hematopoietic  
Cell Transplantation  
Hematopoietic Cell Therapies  
Laboratory  
Hematopoietic Stem Cell and  
Leukemia Research  
Histocompatibility Laboratory  
New Drug Development for  
Hematologic Malignancy  
  
Medical Oncology &  
Therapeutics Research  
Medical Specialties  
Cardiology  
Gastroenterology

## Departments, Divisions and Programs

(continued)

Hospital Medicine

Infectious Diseases

Neurology

Pulmonary and Critical Care  
Medicine

### Pathology

Anatomic Pathology/Cytology

Clinical Pathology

Transfusion Medicine

### Pediatrics

### Radiation Oncology

Clinical Radiation Oncology

Radiation Physics

Radioimmunotherapy

### Supportive Care Medicine

Psychology

Psychiatry

### Surgery

Gynecologic Surgery

Head and Neck Surgery

Neurosurgery

Orthopaedic Surgery

Plastic and Reconstructive

Surgery

Surgical Oncology

*Breast Surgery Service*

*Colorectal Surgery Service*

*Hepatopancreatobiliary Service*

*Mixed Tumor Service*

Thoracic Surgery

Urology and Urologic Oncology

### National Medical Center Major Programs/Centers

Brain Tumor Program

Breast Cancer Program

Cancer and Aging Research  
Program

Center for Cancer  
Survivorship

Center of Community Alliance  
for Research & Education

Gastrointestinal Cancer Program

General Clinical Research  
Center

Gynecologic/Peritoneal Malig-  
nancies Cancers Program

Hematologic Malignancies  
Program

Kidney Cancer Program

Leukemia Program

Lung Cancer and Thoracic  
Oncology Program

Lymphoma Program

Lymphoma SPORE

Matched Unrelated Donor  
Program

Medical Informatics

Medical Quality

Multiple Myeloma Program

Musculoskeletal Tumor Program

Prostate Cancer Program

Sheri & Les Biller Patient and  
Family Resource Center

Women's Cancers Program
