Why Support City of Hope?

- City of Hope is a new model of cancer center, focused on rapidly accelerating the application of scientific discovery into new, better treatments.
- Our research leads to innovative drugs and treatments that help patients worldwide. (e.g., Humulin, Herceptin, Rituxan, Avastin, etc.)
- We use technology in new ways to treat more diseases and transfer that knowledge around the world. (e.g., bone marrow transplantation to treat multiple sclerosis and diabetes)
- Our scientific excellence and compassionate care attract patients from across the country.
- Our experts collaborate with others throughout the world and train the next generation of scientists.
