

## LEGIONS OF HOPE

*A personal way for you to help us find a cure*

Legions of Hope is a personal giving club comprised of extraordinary professionals within the office products industry who wish to show their support for City of Hope, beyond their organization's participation.

At City of Hope, we want to save more lives by creating better treatments for cancer, and when you band together with other dedicated individuals from every segment of the office products industry, you help City of Hope shorten the time it takes to get from bold, innovative ideas to powerful new medical treatments.

Become a **Legions of Hope** member for \$300 and receive a sterling silver City of Hope lapel pin designating your participation. Members will also be highlighted in our commemorative *Spirit of Life*® Gala journal book. In addition, your enthusiasm, compassion and industry leadership will serve as a remarkable example for others to follow.
