INTERNATIONAL PATIENT GUIDE

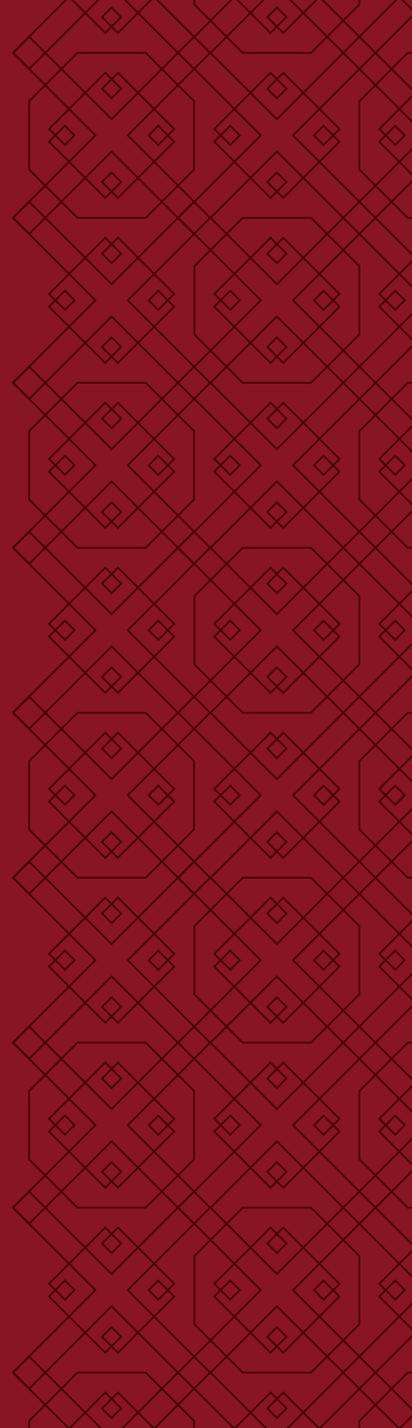

YOU ARE WELCOME HERE.

Our International Medicine Program is designed to provide customized services and programs to cancer patients who live outside the United States and wish to receive world-renowned medical care at City of Hope.

You will be supported by an individual navigator to provide guidance, in your language, to arrange your first visit and assist during your care.

Our goal is to make you as comfortable as possible during your cancer experience so that you can focus on healing and recovery. Thank you for considering City of Hope.

歡迎

OUR HOLISTIC APPROACH TO CARE

Being diagnosed with cancer is life-changing, which is why choosing where to be treated for cancer is one of the most important decisions to make—especially when traveling far from home. City of Hope is known for our multidisciplinary, state-of-the-art cancer treatment. Here, medical research and clinical care are integrated, speeding the application of scientific discoveries into better, more effective patient cancer treatments.

City of Hope's patients are adults and children who seek the best care and the best hope of living their lives to the fullest. As pioneers in patient-centered care, we remain committed to our tradition of exceptionally compassionate care for patients as well as their families and caregivers. City of Hope has consistently received national awards for patient satisfaction.

"There is no profit in curing the body if, in the process, we destroy the soul."

The City of Hope Credo

City of Hope has a history of more than 100 years of making a difference in the lives of people with cancer, diabetes and other serious illnesses.

For 11 years, we have been ranked as one of “America’s Best Hospitals” by U.S. News & World Report. We are proud to share some of our accomplishments:

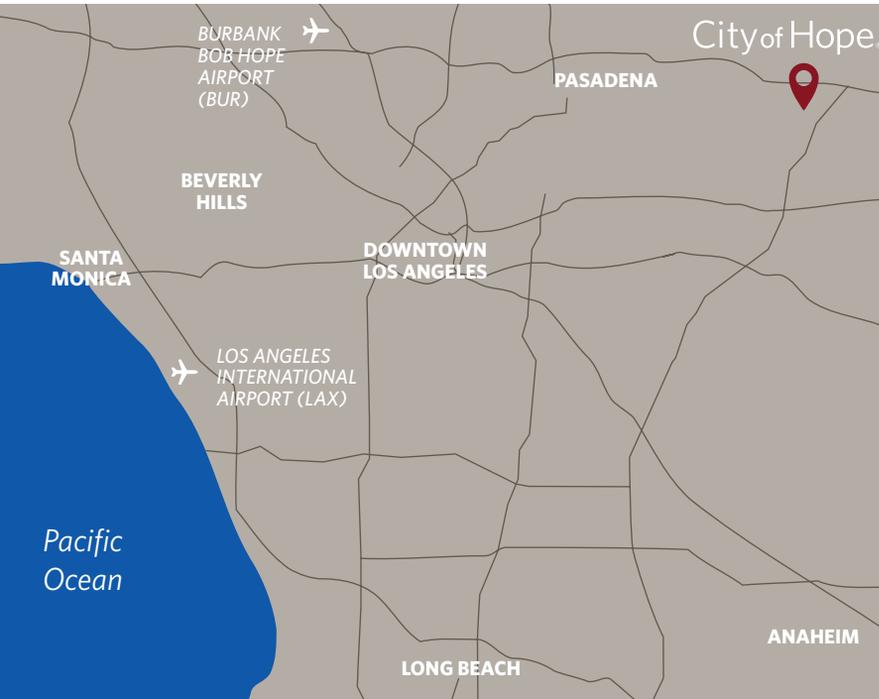

- City of Hope is one of only 41 comprehensive cancer centers, the highest designation bestowed by the National Cancer Institute for excellence in cancer treatment, research, prevention and education.
- City of Hope maintains the No. 1 hematology and prostate cancer programs in California.
- City of Hope is a pioneer of patient-centered care and remains committed to its tradition of exceptional compassionate care for patients and families.
- City of Hope is a leader in bone marrow transplantation, having performed nearly 12,000 bone marrow and stem cell transplants.
- We are the only center in the nation to achieve nine consecutive years of performing above expectations, according to the government’s Center for International Blood and Marrow Transplant Research.
- As a trail-blazer in creating breakthrough treatments for all hematologic cancers and blood-related disorders, City of Hope is one of the world’s largest and most successful transplant center in improving long-term outcomes for both children and adults.

OUR LOCATION

Seated below the beautiful foothills of the scenic San Gabriel Mountain Range, City of Hope is located northeast of Los Angeles. We are near several major cities, including Pasadena, Los Angeles, Arcadia, Anaheim and Long Beach with easy access to both Los Angeles International and Burbank airports. Full of amenities and highlights of Southern California, near the beach, mountains, and desert, City of Hope is a refuge for health and wellbeing.

Known as the “City of Health,” Duarte, California in Los Angeles County is home to City of Hope. Stretched across more than 100 acres in the City of Duarte, lushly landscaped gardens with more than 2,000 types of roses surround the City of Hope state-of-the-art facilities. Duarte is also home to shops, hotels and other businesses that can be of service to those visiting City of Hope.

ACCESSING OUR CARE

Our goal is to provide you the most supportive experience for your health needs. Your personalized navigator will guide you through the City of Hope admissions process and provide support while you are here. We recognize that each patient is unique with important concerns. Our City of Hope team will coordinate with you and your family to ensure your needs are met.

International Patient Program services include:

- Family and individual counseling support
- Language translation services
- Airline, hotel and other travel arrangements
- Cosmetics and hair services
- Religious and cultural accommodations
