Please rate the ICU Family Meeting you attended	Strongly Disagree	Disagree	Neither Agree or Disagree	Agree	Strongly Agree
Pre Meeting – MD to MD meeting to align Recommendations					
1. All physicians were on the same page about the plan of care at the end of the pre-meeting.					
2. I was comfortable contributing in the pre Family Meeting.					
Family Meeting – among treating physician and other healthcare staff and the family (including the decision maker)					
3. The Family Meeting was facilitated in an organized manner.					
4. The purpose of the Family Meeting was clearly defined at the beginning of the meeting.					
5. The patient's values and wishes were acknowledged and respected during the Family Meeting.					
6. The medical team assessed the families understanding of prognosis.					
7. The medical team provided enough current and global medical information to the patient/family to help them understand the current medical recommendation(s).					
8. The medical information was explained in a sensitive manner.					
9. Enough time was allowed to adequately address what mattered most to the family.					
10. The emotional needs of the patient/family were addressed.					
11. The team demonstrated empathy toward the patient and family.					
12. I was comfortable speaking up and contributing in the family meeting.					
13. The Family Meeting provided specific recommendations about next steps in the patients care.					
14. The Family repeated back the situation demonstrating understanding.					
15. The Family Meeting was a good use of my time.
