

IIDP Human Islet Workshop

Counting, Culturing, and Other Helpful Hints

Satellite Workshop of the 2018 Rachmiel Levine-Arthur Riggs Diabetes Research Symposium

Workshop Objective

This workshop is designed to introduce investigators to the IIDP resource and to provide new researchers with some of the basic techniques needed when handling human islets.

Topics to Be Discussed

- ❖ *Introduction to the Integrated Islet Distribution Program (IIDP)*
 - ❖ *Sampling and Counting Techniques*
 - ❖ *Quality Ranking of Human Islets*
 - ❖ *Summary of Islet Potency Assays*
 - ❖ *Factors Affecting Islet Quality*
 - ❖ *New Program Enhancements*

Friday, February 2nd 2018

~6:30pm - 7:30pm

(Or immediately following Session 3)

Presented by Barbara Olack of the IIDP

Pavilion Room

The Langham Huntington, Pasadena, CA

There is no fee for attending this workshop, however please pre-register so we can monitor attendance
