

CONSTELLATION OF OUR COLLABORATION

Our Mission:
The Initiative's mission is to bring AANHPI health issues to the forefront so they can be actively addressed and result in the elimination of health disparities in these communities.

Core Goals of Our Coalition:

- Develop a strong relationship between AANHPI communities, local government agencies, and elected officials
- Advocate for Los Angeles County Dept. of Public Health to recognize, prioritize and address the AANHPI health disparities in this county.
- Consolidate and coordinate the health work our organizations are already doing to eliminate duplication, while also building with our shared resources.
- Analyze and tailor currently-used evidence based strategies to work for the AANHPI communities we serve.

PURPOSE

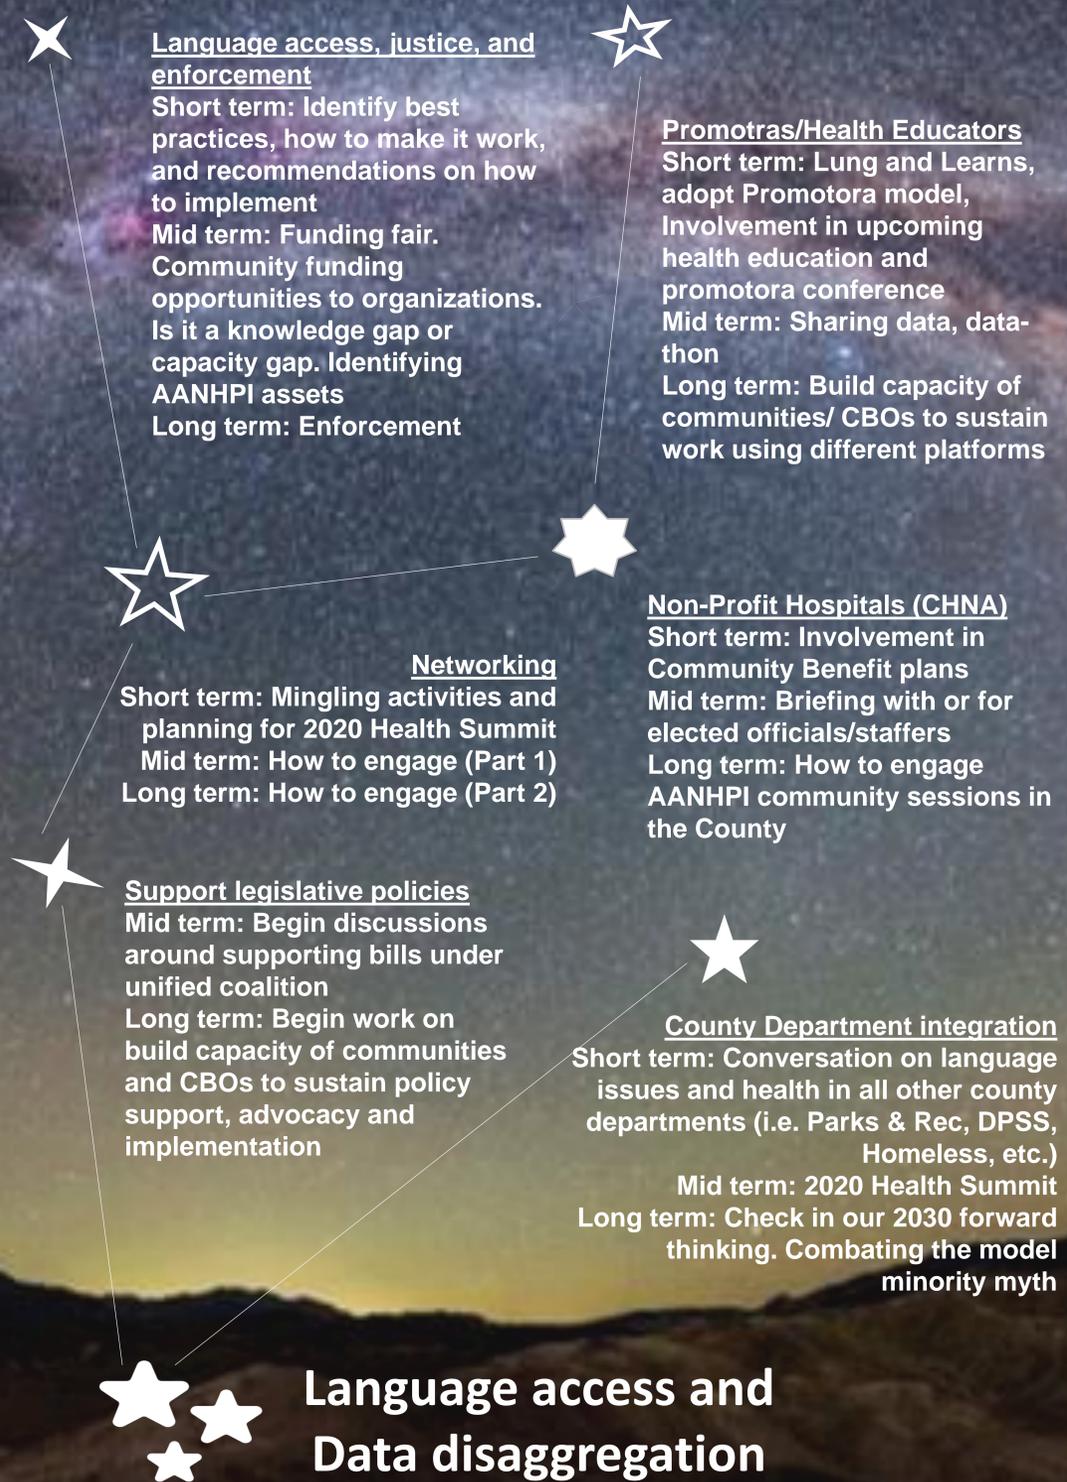

- To better understand the various efforts supporting AANHPI populations in LA County
- To begin the process to outline the 'constellation' that will link our various efforts
- To identify key activities and next steps for 2019:

OUTCOMES

- Better understanding of various AANHPI efforts in LA County
- Better understanding of the 'constellation of collaboration'
- Clear sense of next steps for activities in 2019

PROCESS

- ★ Where are all the Stars at?
Each member shares their current areas of focus related to API communities
- ★ The Constellation of Collaboration
Types of opportunities to collaborate
- ★ Activating the Constellation!

What We Did

We developed 3 collective impact evaluation strategies:

- 1) AANHPI Health Summit is organized every other year by the AANHPI Health Initiative. The 2018 Health Summit, took a deep dive on current and upcoming funding opportunities for AANHPI health issues. During our Health Summit we had a breakout session that discussed a new framework for our work.
 - Takeaways – strategic sessions and more voice in our work
 - Understanding collective Impact process and background of our work
 - Commitments by all coalition members
- 2) Post-conference questionnaire asking participants what they learned about collective impact. The most common key learnings were:
 - Funders are increasingly interested in cross-sector collaboration, relationship building, partnerships, especially among smaller AANHPI organizations
 - Revenue-generating services is an innovative form of revenue that many AANHPI nonprofit organizations should build into their strategic plan
 - Health disparities and data are powerful tools to advance health equity
- 3) 2 strategy retreats to bring back Health Summit participants and existing coalition members together. Facilitated by our Health Initiative member, Jon Nomachi from First 5 LA, we followed a P.O.P. strategy model.
