

## **City of Hope National Medical Center seeks a nationally recognized, executive level academic oncology leader to serve as Physician-in-Chief in Orange County.**

**The Physician-in-Chief (PiC) will be responsible for the oversight of all clinical activities, play a key role in the ongoing planning and execution needed for the new facilities, and serve as the “physician face” of the City of Hope in Orange County (OC), cultivating relationships with physician and community stakeholders and building the City of Hope brand.**

City of Hope’s innovative vision for Orange County includes building a regional cancer center network that includes a campus in Irvine and three to four additional community sites, including Newport Beach which opens in 2020. The Irvine campus will include a \$1 billion state-of-the-art comprehensive cancer campus.

### **ESSENTIAL DUTIES:**

- Develop strategies and lead implementation of clinical growth plans.
- Partner and collaborate with other administrative/operational/nursing leaders to identify and pursue revenue generating and cost reduction opportunities as well as improve patient quality/safety/experience.
- Participate as needed in the business development opportunities that will lend support to achieving the established goals including the development and growth of physician outreach programs to expand the network and attract new patients.

### **THE PHYSICIAN-IN-CHIEF WILL:**

- Report to the President of City of Hope National Medical Center
- Be a key member of the Executive Leadership Team
- Have a separate “dotted line” relationship to the President of City of Hope in Orange County

### **THE IDEAL CANDIDATE MUST:**

- Have extensive leadership experience at a specialty cancer center or academic medical center that delivers both clinical and translational research to patients diagnosed with cancer.
- Be well versed in the state of cancer care and the latest research and innovations.
- Be comfortable developing critical partnerships within the community, networking locally and nationally, collaborating with multi-specialists and researchers, etc.

### **REQUIRED EXPERIENCE:**

- 8+ years management experience having worked in a large (greater than 100 MDs), multi- specialty oncology practice in a medical group, medical foundation, health system or integrated delivery network model.
- 5 or more years of experience as a Medical Director or Physician Executive/Leader in a hospital or

health system.

- Prior experience demonstrating the ability to successfully manage professionals in a complex, multi-faceted health care clinic operation.

## WHO WE ARE:

City of Hope is dedicated to making a difference in the lives of people with cancer, diabetes, and other serious illnesses. Our mission is to transform the future of health care by turning science into a practical benefit, and hope into reality. We accomplish this by providing outstanding care, conducting innovative research and offering vital education programs focused on eliminating these diseases.

Founded in 1913, City of Hope is one of only 51 comprehensive cancer centers in the nation, as designated by the National Cancer Institute. We are ranked the 11th Best Cancer Hospital in the nation by U.S. News and World Report and are the highest ranked cancer hospital in the West. City of Hope (COH) is a leading research and treatment center for cancer, diabetes and other life-threatening diseases located in Duarte, California. Over the last 100 years, City of Hope has built a legacy in Duarte of being a world leader in cancer research, treatment, and prevention. Recently, the organization extended its reach beyond Duarte to include 30 community sites in Los Angeles, Riverside, and San Bernardino counties, steadily moving it to number one in Southern California for inpatient market share and pushing its capacity limits. In 2018, City of Hope began a transformational journey with ambitious goals in the areas of patient care, value-based care and precision medicine, hematology malignancies, stem cell transplants, and meaningful innovations and cures. Integral to the realization of these goals is the expansion of City of Hope to the Orange County market. Orange County has the ideal conditions for City of Hope to demonstrate its ability to expand its differentiated, niche services, including research, genetic capabilities and outstanding, subspecialty care.

Our community includes research associates, scientists, doctors, nurses, allied health professionals, graduate students, fundraising specialists, marketing professionals, volunteers and an extensive support staff. We are united by our desire to find cures, save lives and transform the future of health. Every discovery we make and every new treatment we create gives people the chance to live longer, better and more fully.

City of Hope continues to be a pioneer of patient centered care and remains committed to its tradition of exceptional care for patients, families and communities. Each day, we live out our credo:

*"There is no profit in curing the body, if, in the process, we destroy the soul."*

**Directly apply:** Please send CV and statement of interest to Nikki Hoang, Physician Recruiter, at [nihoang@coh.org](mailto:nihoang@coh.org), or call 626-506-0634 for more information.
