Walk With Sally provides hope through individualized mentoring and community support services to empower children experiencing trauma through a parent, guardian, or sibling’s cancer journey.

Mentees ages 7-17 are matched with adult mentors who have also been impacted by cancer. Mentors and mentees spend 6-8 hours per month together and are matched for a minimum of 1 year.

363 people attended 4 Friendship Activities between August 2019- May 2020. Mentors, mentees ages 14+, and parent/guardians of mentees were surveyed after 1 year of the program. 20 participants (7 mentors; 5 mentees; 8 family members) responded.

100% (20) of participants were Very Likely to recommend the WWS program to someone in a similar situation

100% (5) of mentees felt that they were able to learn something new through the WWS program

100% (7) of mentors Strongly Agreed or Agreed that being a mentor helped them with their own healing

Mentees felt or seemed less stressed or anxious after participating in the WWS program (n=20)

Mentees felt or seemed less lonely after participating in the WWS program (n=20)

Mentees or seemed more often after participating in the WWS program (n=20)

For the last 2 years, Walk With Sally has hosted Friendship Activities, which are experiential and educational day-long events.
