

# CLIMB Program

## Children's Lives Include Moments of Bravery

- This FREE virtual support group is for children ages 6 to 17 years old whose parent or other important adult in their life has been diagnosed with cancer.
- Over six weeks, children and teens will be provided opportunities to normalize feelings of sadness, anger and fear, while also nurturing positive communication between the children and their parents.
- Adult patients or caregivers will also be offered a concurrent six-week support group that focuses on learning how to effectively communicate with children while navigating a cancer diagnosis.
- For more information and to register for the support group, please reach out to Jo Ann Namm, CCLS, by phone at **(626) 218-4513** or email at [jnamm@coh.org](mailto:jnamm@coh.org).
