# Neoplastic Hematopathology Update: Lymphoma Symposium

September 19, 2015

WESTIN PASADENA  
191 NORTH LOS ROBLES, PASADENA, CA 91101  
7:30 am to 4:30 pm

## FOCUS:

More than 25,000 scholarly publications on the topic of lymphoma have been published during the last 3 years. The number and breadth of the publications make it difficult for practicing physicians to maintain current knowledge and competence in application of recent developments. This course is designed for the practicing physician to maintain current knowledge and accurate application of the recent developments in disease classification, molecular biology, diagnostic algorithms, testing modalities, and therapeutic advances.

## TARGET AUDIENCE:

This educational program is directed towards practicing pathologists with an interest or training in Hematopathology as well as Oncologists, Hematologists and advanced trainees.

## OBJECTIVES:

**Describe** recent developments in the diagnosis, classification, and molecular biology of lymphoma.

**Recognize** the impact of new developments on targeted and personalized therapy.

**Implement** current best practices for diagnosis, classification and detection of prognostic and therapeutic markers.
