

City of Hope opens investigational vaccine trial for type 1 diabetes

A City of Hope phase 1 trial featuring an investigational vaccine that uses a person's own immune cells, a beta cell protein and vitamin D3 to potentially treat type 1 diabetes is now recruiting patients. The trial is part of The Wanek Family Project for Type 1 Diabetes at City of Hope, which seeks to find cures for the disease.

First Annual Diabetes Awareness Walk in Pleasant Valley

Camarillo Amber's Light Lions and Pleasant Valley/Somis Lions co-sponsored their first Annual Diabetes Awareness Walk on November 7 and it was a great success despite the challenging weather. Thanks go to Kim Dallape and Victor Martinez who chaired the event, to all the walkers, including the Rancho Campana Leo's, and the supporters. All donations will be given to the City of Hope for diabetes research.

February is Lions Childhood Cancer Awareness Month

Next month will be Childhood Cancer Awareness Month. As we continue our service and help to find an end to childhood cancers, we want to share our resources that can help you find ways to contribute to the fight. Head to the Lions Clubs International

Foundation website to learn more.
