

33rd Beckman Symposium Schedule

“Theranostics – Bridging Imaging and Therapy”

- 7:30-8:20 CHECK-IN and BREAKFAST
- 8:30-8:35 Welcome (John Carpten)
- 8:35-8:55 Jack Shively - History of antibodies and theranostics at CoH
- 8:55-9:00 Anna Wu – Overview of invited talks (and intro Marty Pomper)
- 9:00-9:50 Martin Pomper - **Forward Motion in Theranostics**
- 9:55-10:45 Zachary Morris - **Integrating radiopharmaceuticals in combined modality treatments for cancer** (Intro by Dr. Jeff Wong)
- 10:45-11:00 BREAK
- 11:00-11:50 Jason Lewis - **Theranostics - Precision Medicine in Cancer Treatment** (intro by Paul Yazaki)
- Noon-1:00 LUNCH
- 1:00-1:50 Suzanne Lapi - **Development of new isotopes for theranostic applications** (intro by Anna Wu)
- 1:55-2:45 Julie Sutcliffe – **$\alpha v\beta 6$ targeted imaging and treatment: Bench to bedside** (intro by Kirstin Zettlitz)
- 2:50-3:10 BREAK
- 3:10-4:00 Richard Baum - **Radiotheranostics targeting fibroblast activation protein: Experience treating cancer using FAP-3940** (intro by Jack Shively)
- 4:00-4:25 Panel discussion
- 4:25-4:30 Closing remarks
